## THE INDUSTRIAL CONFERENCE.

A Serious Split Threatened.

SI. LOUIS, Feb. 23. A serious split is threatened in the Industrial Conference. At present, the various hold last night many Southerners were not in favor of a third party as to hold that their secession from the Democratic party would only strengthen the Federalists.

Mr. George, of St. Louis, who had conference determine on a third party, they would withdraw from the body.

The Reform Press Association, Women's Alliance, Union Labor Association, Central Nationalists, Farmers' League, Alliance assemblies of Industrial and many smaller organizations not represented on the credentials committee, are in agreement and are threatening that they will comply with all the conditions of the call for the conference and if not admitted they threaten a second conference.

At the industrial convention to-day, the third party fight was opened by the report of the committee on credentials, sealing Post and Branch, two third party delegates whom it was sought to shut out.

Post denounced Congressman Livingston, of Georgia, in attempting to hand over the alliance of that state, bound hand and foot, to the Democratic party.

It is expected that on this issue no one will interfere. After the exchange of hot personalities and extraordinary confusion the report of the credentials committee was adopted by a large majority, a unanimous triumph for the third party.

The row among the Georgians continued fiercely, however, and was only ended by the segregationists' club in hand, forcing the other warring Southerners down to their seats.

When quiet was measurably restored, a list of nearly 500 members of the platform committee was read, and all the other heterogeneous subjects were trifled.
